

Academy Of Tourism And Hotel Management Career Office

We set up Academic Career Office at WSOTiH for all Students and Graduates who face with problematic situations at the beginning of their careers. Currently, employers focus on candidates higher requirements, not only the substantive knowledge, but also looking for "added values" that a candidate can bring to the company. The road to job from dream in good company is harder as in the past, and candidates often looking for the consulting services. The same situation meets employers seeking the best employees.

Career Office was established to make easier talks between candidates including WSOTiH Students / Graduates and employers on the job market.

Main areas of Career Office activity are:

- Careers advice
- Trainings
- Professional trainings in job positions
- Work service
- PR for the WSOTiH Academy
